## Newsletter

**22 november 2005 - Number 10**

Past numbers of this newsletter are available on the web at <http://www.epvtech.com>

### In this number

- 1) **Tech Papers - WLM Work Manager Delays (Part 2)**
- 2) **Tech Support - EPV for z/OS V6**
- 3) **Tech Notes - EPV for z/OS V6 planned improvements**
- 4) **Call for suggestions - Is there any report or view you would like to have in EPV ?**

---

This message contains news related to EPV products produced and distributed by EPV Technologies.

The EPV products suite answer problems such as **Managing Performance, Tuning and Capacity Planning** on the most common platforms, **allowing huge savings on HW and SW costs.**

Greater details and information on EPV products and solutions can be found at <http://www.epvtech.com> or writing to [epv.info@epvtech.com](mailto:epv.info@epvtech.com).

---

#### 1) Tech Papers

##### **WLM Work Manager Delays (Part 2)**

Fabio Massimo Ottaviani – EPV Technologies

White paper – WLM series

*In Part 1 an overview of WLM Work Manager and Execution Delay Services has been provided. The “Single Address Space” and “Single Address Space and supporting DB” scenarios have also been discussed.*

*In Part 2 more complex scenarios are presented showing the differences in behavior between CICS, IMS and Websphere subsystems.*

*If you want to receive the white paper you can reply to this e-mail writing "WLM Work Manager Delays (Part 2) " in the subject.*

---

## **2) Tech Support - EPV for z/OS V6**

**The development of EPV** for z/OS version 6 has started (see Tech Notes). The general availability is planned by 3rd QTR 2006.

EPV for z/OS version 5 is "frozen" and will be modified only for error corrections.

---

## **3) Tech Notes - EPV for z/OS V6 planned improvements**

### **New component: Service Vision**

It will include Availability and Abend Views

### **Resource Vision - New Views**

PPRC statistics

XCF statistics

### **Workload Vision - New Views**

Application based views

Improved statistical analysis for CICS and IMS transactions at the hour level

Performance Index analysis by Report Class

### **Trend Vision - New Views**

CPU usage by WLM importance to choose a business oriented baseline in Capacity Planning activities

Percentile Month Trend view to do a quick verification of Capacity Planning forecast

Other important improvements will be introduced in Configuration Changes and WLM views.

More details in future newsletters.

---

## **4) Call for suggestions - Is there any report or view you would like to have in EPV ?**

We are completing the enhancement list for EPV for z/OS version 6. If you want you can drive our decisions by submitting enhancement requests to suggest new reports.

An award will be assigned to each one suggesting a new report that will be introduced in EPV for z/OS version 6.

The awards will be consigned during the EPV User Group 2006.
