

# EPV Technologies

## Newsletter

26 January 2006 - Number 1

Past numbers of this newsletter are available on the web at <http://www.epvtech.com>

## In this number

### 1) Tech Papers - WLM Work Manager Delays (Part 3)

### 2) Tech Support

Wrong CPU consumptions when using zAAP processors

EPV for zOS V5 – Required maintenance level to support SAS Version 9

### 3) Tech News

CMG-Italia Seminar - "Scalability and Performance of .NET Framework Applications"

CMG-Italia Seminar - "WLM 2006: errors, half errors and unknowns"

Central Europe CMG 2006

---

This message contains news related to EPV products produced and distributed by EPV Technologies.

The EPV products suite answer problems such as **Managing Performance, Tuning and Capacity Planning** on the most common platforms, **allowing huge savings on HW and SW costs.**

Greater details and information on EPV products and solutions can be found at <http://www.epvtech.com> or writing to [epv.info@epvtech.com](mailto:epv.info@epvtech.com).

*All the mentioned trademarks belong to their respective companies.*

### 1) Tech Papers

#### WLM Work Manager Delays (Part 3)

Fabio Massimo Ottaviani – EPV Technologies

White paper – WLM series

*In Part 1 an overview of WLM Work Manager and Execution Delay Services has been provided. The “Single Address Space” and “Single Address Space and supporting DB” scenarios have also been discussed.*

*In Part 2 more complex scenarios have been presented showing the differences in behavior between*

*CICS, IMS and Websphere subsystems.*

*In this last part the meaning of each Work Manager using and delay state will be discussed, Real life examples of CICS, IMS and Websphere service classes will be presented.*

*If you want to receive the white paper you can reply to this e-mail writing "WLM Work Manager Delays (Part 3) " in the subject.*

---

## 2) Tech Support

### **Wrong CPU consumptions when using zAAP processors**

IBM APAR OA14365 corrects an error in the R723IFAT field (SMF 72 records); this error may cause wrong CPU utilization values both for standard and zAAP processors.

The correction has to be installed for all customers using zAAP processors.

More details at: <http://www-1.ibm.com/support/docview.wss?uid=isg1OA14365>

### **EPV for zOS V5 – Required maintenance level to support SAS Version 9**

The 5.69 maintenance level of EPV for z/OS has to be installed to fully support SAS version 9. This maintenance corrects possible errors in trend pages production and eliminates warning messages.

To get more information write to: [epv.support@epvtech.com](mailto:epv.support@epvtech.com)

## 3) Tech News

### **CMG-Italia Seminar - "Scalability and Performance of .NET Framework Applications"**

The seminar will be held in Rome on March 9th 2006.

The speaker will be Mark Friedman from Demand Technology Software.

More details in the next newsletter or on the CMG-Italia web site at: <http://www.cmgitalia.it>

### **CMG-Italia Seminar - "WLM 2006: errors, half errors and unknowns"**

The seminar will be held in Milan on March 29th 2006.

The speaker will be Fabio Massimo Ottaviani from EPV Technologies.

More details in the next newsletter or on the CMG-Italia web site at: <http://www.cmgitalia.it>

### **Central Europe CMG 2006**

CECMG 2006 will be held in Magdeburg (Germany) on april 26-28.

EPV Technologies will sponsor the conference. Two demo points will be available at the EPV booth to present all the new products and features included in the EPV suite.

EPV Technologies will also present the paper "Resource Accounting in the new z/OS World".
