EPV EXPLORER

GUESS WHERE I AM !

Every month we will invite Newsletter readers to guess in which part of the world is the EPV explorer. The editorial staff will collect the results and at the end of the year we will send a symbolic prize to the participant with the highest number of correct answers. In case of a tie the winner will be chosen by drawing.

The real prize is that he will also decide the NGO EPV Technologies will donate 1.000,00 Euro to, choosing from: MSF (www.medicisenzafrontiere.it), TDH (www.terredeshommes.it) and WWF (www.wwf.it).

The solution of July is

Santorini(Greece).

Special edition for the EPV User Group 2017

Preliminary agenda

The final agenda will be published in the next newsletter.

EPV User Group 2017 - Preliminary Agenda			
25 October 2017			
09:30	Introduction	Danilo Gipponi	EPV Technologies
09:45	New views in EPV for z/OS V14	Massimo Orlando	EPV Technologies PP
10:15	WLM Policy Review at Gothaer Systems	Hans Gerd Schneider	Gothaer Systems UE
10:45	The new Fast Path technology	Matteo Bottazzi	EPV Technologies PP
11:00	Performance data quality control with MyEPV	Martin Billiau	Eurodear UE
11:30	coffee break		
12:00	EPV for DB2 User Experience	To be confirmed	To be confirmed UE
12:30	What's New in EPV for DB2 V14	Giuseppe Giacomodonato	EPV Technologies PP
13:00	What's New in EPV for zLINUX V14	Dana Cohen Austrowiek	EPV Technologies PP
13:30	Lunch		
14:30	zEDC User Experience	Roberto Gioi	Consorzio MPS UE
15:00	Cost saving with CMP and DB2 VUE	Hans Gerd Schneider	Gothaer Systems UE
15:15	zSystems update	Fabio Massimo Ottaviani	EPV Technologies MT
16:00	End		

Presentations

All the presentations will be written in English.

Legenda

UE = User Experience, PP = Product Presentation, MT = Methodology

New views in EPV for z/OS V14 (PP)

Many new views have been added to the initial release of V14.
This presentation will focus on the most important of them.

WLM Policy Review at Gothaer Systems (UE)

This presentation describes a project, done at Gothaer Systems, to review and improve the WLM policy.
The reasons leading to the project, the used methodology and the results obtained will be discussed.

The new Fast Path technology (PP)

A new exciting technology is available in EPV for z/OS allowing to easily create user fast paths to a selection of the EPV views.
A practical example of creating a user fast path will be presented.

Performance data quality control with MyEPV (UE)

Controlling the completeness and quality of the collected data is essential for performance data bases too.
This presentation will describe the activity in progress at Euroclear showing what has been done and discussing what is planned for the future.

EPV for DB2 User Experience (UE)

A real life experience of using EPV for DB2 to fulfill many different needs previously covered by more tools.

What's new in EPV for DB2 V14 (PP)

The most important new features and functions provided in the new version of EPV for DB2 will be presented.

What's new in EPV for zLINUX V14 (PP)

The most important new features and functions provided in the new version of EPV for zLINUX will be presented.

zEDC User Experience (UE)

This presentation will describe a user's experience of implementing zEDC. After an introduction to the zEDC functionalities the obtained results and the issues faced will be discussed.

Cost saving with CMP and DB2 VUE (UE)

This presentation will describe an analysis of the cost saving possibilities of some new and old license options such as Country Multi-Plex and DB2 Value Unit Edition. First results will also be presented.

zSystems update (MT)

This presentation will discuss:

- the most important performance characteristics of the IBM z14
- the most important new performance metrics provided in z/OS 2.3

User Group dinner

As every year EPV Technologies invite all the participants to the EPV User Group dinner to be held on 24th October evening.

You will have the opportunity to spend an unforgettable evening and enjoy the fantastic Italian cuisine.

More details in the next newsletter.

Special event

EPV Technologies is proud to invite all the participants to "The Ara As It Was". In an incredible display of augmented reality you'll be flung headfirst into one of the most important and influential masterpieces of Roman culture - the Ara Pacis.

You will watch the Emperor Augustus and his family come to life through narrating characters, virtual elements, and real life in a multi-sensory leap into the history of Rome.

Subscription

The EPV User Group is free of charge and reserved to EPV customers.

For an EPV customer to subscribe it's enough sending an email to epvtech@epvtech.com with subject "Subscribe EPV UG 2017". Customers needing a formal invitation can ask for that by writing to epv.info@epvtech.com.

If you are not a customer yet but you are interested in participating, you can ask for an invitation by writing to epv.info@epvtech.com.

RECIPES

Tonnarelli al pesto di rucola

Ingredients

Tonnarelli(pasta) 500g
Rocket salad 100g
Pine nuts 50g
Extra virgin olive oil 200ml
Parmesan cheese 50g
Garlic
Salt

Method

To prepare pasta with rocket salad pesto, start boiling water. In the meantime, prepare the pesto: after washing and drying the rocket salad, transfer it to a mixer, and add the pine nuts, salt, garlic, parmesan, and half the

dose of olive oil.

Run the mixer several times, adding the remaining oil, until reaching the desired creamy consistency. Once ready, transfer it to a non-stick frying pan and cook the pasta in salty boiling water.

Add a ladle of cooking water to the pesto and mix. Finally drain and pour the pasta into the pan and whisk for a few seconds with rocket salad pesto, on a lively fire.

Tonnarelli al pesto di rucola are ready to be served.

QUOTES

Chuck Aule: I don't know, boss. How can you believe a crazy guy?

Teddy Daniels: That's the beauty of it. Mental Patients make the perfect subjects, if they talk nobody listens to them!
