

EPV Technologies is proud to invite you to the

EPV BeNeLux and Nordic Countries User Group 2018

Performance Analysis and Capacity Planning for mainframe environments

The EPV User Group is a "not to miss" event for all Performance Analysts; it will give you the opportunity to share ideas with qualified experts and to listen to some of the EPV customers experiences.

The relevant measurements and techniques, needed to analyze the new IBM hardware and software technologies, will be discussed.

The most interesting features provided by the latest versions of all EPV products will also be presented.

Final Agenda			
09:45	Welcome		
10:00	z14 Capacity Planning	Fabio Massimo Ottaviani	EPV Technologies
10:30	What's new in EPV for z/OS V14	Fabio Massimo Ottaviani	EPV Technologies
11:00	EPV Technologies @ BCEE	Yann Riou	BCEE
11:30	coffee break		
12:00	EPV zParser for Big Data	Danilo Gipponi	EPV Technologies
12:15	EPV for z/OS at CTIE	Mike Schmitz	CTIE
12:30	What's new in EPV for Db2 V14	Fabio Massimo Ottaviani	EPV Technologies
13:00	Lunch
