EPV User Group 2017 - Preliminary Agenda

25 October 2017

09:30	Introduction	Danilo Gipponi	EPV Technologies	
09:45	New views in EPV for z/OS V14	Massimo Orlando	EPV Technologies	PP
10:15	WLM Policy Review at Gothaer Systems	Hans Gerd Schneider	Gothaer Systems	UE
10:45	The new Fast Path technology	Matteo Bottazzi	EPV Technologies	PP
11:00	Performance data quality control with MyEPV	Martin Billiau	Euroclear	UE
11:30	coffee break			
12:00	EPV for DB2 User Experience	To be confirmed	To be confirmed	UE
12:30	What's New in EPV for DB2 V14	Giuseppe Giacomodonato	EPV Technologies	PP
13:00	What's New in EPV for zLINUX V14	Dana Cohen Austrowiek	EPV Technologies	PP
13:30	Lunch			
14:30	zEDC User Experience	Roberto Gioi	Consorzio MPS	UE
15:00	Cost saving with CMP and DB2 VUE	Hans Gerd Schneider	Gothaer Systems	UE
15:15	zSystems update	Fabio Massimo Ottaviani	EPV Technologies	MT
16:00	End			

All the presentations will be written in English

New views in EPV for z/OS V14 (PP)

Many new views have been added to the initial release of V14. This presentation will focus on the most important of them.

WLM Policy Review at Gothaer Systems (UE)

This presentation describes a project, done at Gothaer Systems, to review and improve the WLM policy. The reasons leading to the project, the used methodology and the results obtained will be discussed.

The new Fast Path technology (PP)

A new exciting technology is available in EPV for z/OS allowing to easily create user fast paths to a selection of the EPV views.

A practical example of creating a user fast path will be presented.

Performance data quality control with MyEPV (UE)

Controlling the completeness and quality of the collected data is essential for performance data bases too. This presentation will describe the activity in progress at Euroclear showing what has been done and discussing what is planned for the future.

EPV for DB2 User Experience (UE)

A real life experience of using EPV for DB2 to fulfill many different needs previously covered by more tools.

What's new in EPV for DB2 V14 (PP)

The most important new features and functions provided in the new version of EPV for DB2 will be presented.

What's new in EPV for zLINUX V14 (PP)

The most important new features and functions provided in the new version of EPV for zLINUX will be presented.

zEDC User Experience (UE)

This presentation will describe a user's experience of implementing zEDC. After an introduction to the zEDC functionalities the obtained results and the issues faced will be discussed.

Cost saving with CMP and DB2 VUE (UE)

This presentation will describe an analysis of the cost saving possibilities of some new and old license options such as Country Multi-Plex and DB2 Value Unit Edition. First results will also be presented.

zSystems update (MT)

This presentation will discuss:

- the most important performance characteristics of the IBM z14
- the most important new performance metrics provided in z/OS 2.3

UE = User Experience, PP = Product Presentation, MT = Methodology
