EPV Technologies is proud to invite you to the

EPV Israel
User Group 2018

Performance Analysis and Capacity Planning
for mainframe environments

The EPV User Group is a "not to miss" event for all Performance Analysts; it will give you the opportunity to share ideas with qualified experts and to listen to some of the EPV customers experiences.

The relevant measurements and techniques, needed to analyze the new IBM hardware and software technologies, will be discussed.

The most interesting features provided by the latest versions of all EPV products will also be presented.
