## **TECH PAPERS**

### Controlling z/OS job delays at a glance with MyEPV Quick View

Controlling the variance of duration times, resource utilization and delay types of jobs on a daily basis is a very difficult and time-consuming activity. However, it is an essential task in order to guarantee good service levels and sufficient capacity for the organizations.

This can be possible now with the JOB DELAYS package of MyEPV Quick View. MyEPV is an open source solution, including small packages, built by exploiting the MyEPV functionalities and designed to focus on specific z/OS performance areas.

In this paper, we will discuss the architecture of the JOB DELAYS package and the HTML reports provided.

It is important to note that all the concepts and metrics discussed here are of general interest also for not EPV customers.

If you want to receive the paper you can reply to this e-mail writing "Controlling z/OS job delays at a glance with MyEPV Quick View" in the subject

## TECH NEWS

### EPV User Group 2018 – Agenda, event and dinner

The XVI EPV User Group will be held in Rome on 11th October 2018 at Hotel Cicerone, Via Cicerone, 55/c, 00193 Roma.

The EPV User Group is a "not to miss" event for all Performance Analysts; it will give you the opportunity to share ideas with qualified experts and to listen to some of the EPV customers experiences.

The most interesting features provided by the latest versions of all EPV products will also be presented.

The EPV User Group is free of charge and reserved to EPV customers. If you are not a customer yet but you are interested in participating, please answer to this e-mail asking for an invitation.

Mark the date in your agenda to avoid missing this event.

#### Agenda

EPV User Group 2018 - Agenda				
11 October 2018				
09:30	Introduction - products overview	Danilo Gipponi	EPV Technologies	
09:45	EPV for CICS preview	Fabio Massimo Ottaviani	EPV Technologies	PP
10:00	From TDS to EPV/Hadoop	José Ramon Megía	PRODUBAN	UE
10:15	Cost Accounting with EPV/Hadoop	Marco Pani	CEDACRI	UE
10:45	EPV for Big Data update	Matteo Bottazzi	EPV Technologies	PP
11:00	coffee break			
11:30	Advanced architecture for SMF data collecti	Fabio Paparo	INTESA SANPAOLO	UE
11:45	Using the MyEPV GUI	Stefano Rotunno	EPV Technologies	PP
12:15	MyEPV Quickview: system and batch contro	Daniel Cohen Austrowiek, Mark Cohen Austrowiel	EPV Technologies	PP
12:45	Lunch			
14:00	EPV Migration from SAS to WPS	Maria Paola Bramosi	V-TServices	UE
14:30	What's New in EPV for MQ V14	Giuseppe Giacomodonato	EPV Technologies	PP
15:00	Tuning Db2 in MPS	Roberto Gioi	CONSORZIO MPS	UE
15:30	Measuring Db2 locks and latches	Fabio Massimo Ottaviani	EPV Technologies	MT
16:30	End			

#### Event

All the participants are invited to join us and visit Castel Sant'Angelo (formerly Mausoleum of Hadrian emperor) on 10th October evening.

We will discover the history of this ancient building from the Roman origins through the many changes in the last 2.000 years.

See: [Castel Sant'Angelo](#)

## Dinner

All the participants are invited to join us to the EPV User Group Dinner. You will enjoy the amazing Italian cuisine in a typical Roman restaurant.

Presentations abstracts and more details about the EPV User Group event and dinner will be published in a special edition of the EPV Newsletter.

## TECH NOTES

### Getting Started with IBM zHyperLink for z/OS – IBM Redpaper

“With the pressures to drive transaction processing 24/7 because of online banking and other business demands, IBM zHyperLink on the IBM DS8880 is making it easy to accelerate transaction processing for the mainframe. This IBM Redpaper publication helps you to understand the concepts, business perspectives, and reference architecture of installing, tailoring, and configuring zHyperLink in your own environment.”

## RECIPES

# Medaglioni di tonno al forno con patate

## Ingredients

400 g potatoes  
1 onion  
4 tuna slices  
1 sprig of oregano  
1 glass of white wine  
q.b. pepper  
q.b. salt  
q.b. extra virgin oil

## Method

Peel the potatoes, wash them well under the water, dry them, cut them into thin slices, transfer them in a saucepan with cold water and cook for 5 minutes from the beginning of boiling; drain gently, pass it in cold water to remove the starch and season with 4 tablespoons of oil

Peel the onion and cut it into thin slices; stew it gently for about 10 minutes in a pan with 3 tablespoons of oil, 3 of water, a pinch of salt, a pinch of pepper and a pinch of oregano and then let it cool.

Cover a baking sheet with a baking paper, arrange the slices of tuna next to each other and sprinkle with salt and pepper. Cover with onions and potatoes, add the wine, season with 4 tablespoons of oil and bake at 200 degrees for about 25 minutes.

## QUOTES

*"One must still have chaos in oneself to be able to give birth to a dancing star"*

***Nietzsche***
