EPV SaaS

2

- ▶ On premises
- ▶ Off premises

EPV SaaS on premises

- ▶ Customer will provide HW and SW
- ▶ EPV will provide all the services needed to guarantee the fruition of EPV SW:
 - Installation
 - Evolutive maintainance
 - Corrective maintenance
 - Data and HTML pages recovery
 - Tuning

EPV SaaS state of the art

4

- ▶ We provide something very close to EPV SaaS on premises at some sites since years
- ▶ We are now starting to propose a formal EPV SaaS on premises agreement

EPV SaaS on premises – Pricing

5

► Pricing based on:

- Rental price (new customers) or maintenance price (existing customers)
- Service fee (based on the number of systems or other criteria to be agreed)

EPV SaaS off premises

- ▶ EPV will provide HW and SW
- ▶ EPV will provide all the services needed to guarantee the fruition of EPV SW:
 - Installation
 - Evolutive maintainance
 - Corrective maintenance
 - Data and HTML pages recovery
 - Tuning

EPV SaaS state of the art

7

- ▶ We have a SoD for EPV SaaS off premises
- ▶ Biggest issue is security

EPV SaaS off premises – Test

8

- ▶ Customer has to send the input data
 - With SFTP
 - Using server fingerprints

EPV SaaS off premisis – Deliverables

9

- ▶ EPV products HTML pages produced out-of-the-box
- ▶ MyEPV HTML pages and files
- ▶ Access (in read) to EPV DBs will be allowed

EPV SaaS off premises – HTML pages

10

- ▶ Customer has to access with:
 - HTTPS (using a trusted certificate)
 - His user and password

EPV SaaS off premises – EPV DB

11

▶ Work in progress

EPV SaaS off premises – Example 1/2
